Introduction

Experience includes 8 months as a UX/UI Designer and 3 years in R&D for flexible packaging. Strong in teamwork, listening, customer communication, decision-making, and problem-solving. Seeking a Software Developer role to leverage my skills and experience.

Recent Bootcamp graduate in Junior Software Development JSD#8 with skills in HTML, CSS, JavaScript, Tailwind, React.js, Git, MySQL, Node.js, and Express.js, with an emphasis on hands-on experience using Agile methodology. This experience has helped me develop task ownership, communication, and teamwork skills.
